3XA for diesel engines

Wynn's 3XA for diesel engines is a chemical treatment composed of cleaning agents and a cerium component with triple action:

- 1) considerably decreases soot emission
- 2) cleans the injection and exhaust system
- 3) lowers fuel consumption

Properties

- ✓ Reduces black smoke and the resulting soot emission.
- ✓ Cleans and keeps clean the entire fuel system (injectors).
- ✓ Helps to reduce carbon deposits in the combustion chamber.
- ✓ Helps to improve the combustion and engine performance.
- ✓ Reduces diesel knocking noise.
- ✓ Lowers fuel consumption.
- ✓ Decreases the combustion temperature of soot particulates.
- ✓ Prolongs the life time of the soot filters.
- ✓ Protects the fuel system against premature wear and damage by reducing rust and corrosion formation.
- ✓ Does not harm oxidizing catalysts or soot filters of diesel engines.

Applications

- ✓ Recommended for all diesel engines, as well new as used.

Technical data

Appearance	: clear yellow liquid
Density at 15°C	: ca. 0,8265 kg/dm ³
Refractive Index at 20°C	: ca. 1,4508
Flash Point	: ca. 45°C

The data concerning properties and applications of the indicated products are offered in good faith and are based on our research and practical experiences. Due to the versatility of the application possibilities, it is impossible to mention all details and we do not assume any obligations or responsibilities resulting from this. When a new edition appears due to the technical development, the preceding data are no longer valid.

Product specifications

Directions

- ✓ Add to the diesel fuel tank.
- ✓ One bottle of 325 ml treats 50 litres (11 gallons) of diesel fuel.
- ✓ It is preferable to add the product before filling the tank in order to have a good mixture of the product with the fuel.
- ✓ Repeat treatment every 5.000 km (3.000 miles).

Packaging

PN 76459 – 12x325 ml – EN/DE/FR/NL/TR/EL
